Moreover, 'Garden Industry Expo,' which introduces you to diverse garden tools and garden plant materials, and 'Garden Conference,' which presents information and new technologies related to gardening, will be held during the Seoul Garden Show. There will be 'Festival' where various celebratory performances will take place, and many programs where you can experience gardening as well. We had 870,000 visitors in 2015 and 900,000 in 2016. For 2017, Seoul Garden Show will be held in late September at Yeouido, the political and economical capital of Korea. Please join and show us your support at this year's Seoul Garden Show.
